FILIP STANGRICKI

ABOUT ME

I am an aspiring Web Developer who is passionate about programming. Every day I expand my knowledge of new programming technologies and develop my current skills. I have finished an intensive half-year Web Developer course as well as other courses available on the Internet.
I am a communicative person and a fast learner who likes challenges. I care about code semantics, correctness, and simplicity.
I am certain that my past work experience, education and current skills would be an excellent asset for your company.
